

Human Organ Donation and Transplantation Survey

COUNTRY:

INFORMATION PROVIDED BY:

Name:

Position:

Organization:

Address:

Telephone:

Fax no.:

E-mail:

Date:

BASIC INFORMATION OF THE COUNTRY:

	<u>Yes</u>	<u>No</u>
- Is there a functioning ¹ transplantation programme?	<input type="checkbox"/>	<input type="checkbox"/>
- Is there a functioning programme for organ donation from deceased persons?	<input type="checkbox"/>	<input type="checkbox"/>
- Is there a functioning programme for organ donation from living donors?	<input type="checkbox"/>	<input type="checkbox"/>

¹ Definition of Functioning programme: programme performing or able to perform its regular function

A 1/ ORGANIZATIONAL SYSTEM

1. Is there a Government recognized authority responsible for overseeing donation and/or transplantation at national level?

Yes ☐ If yes, please tick the appropriate for: Donation ☐
 Transplantation ☐
 Both ☐

No ☐ Name (s): _____

2. Is there a specific organization, institution or agency responsible for organ donation and/or transplantation matters at national level?

Yes ☐ If yes, please provide name (s): _____

No ☐ If not, please skip to question 3.

2.1 Which sector provides funding for this organization/institution/agency?

Private ☐

Public ☐

Both ☐

2.2 Does the organization/institution/agency report to the Ministry of Health?

Yes ☐

No ☐ If not, please specify to whom:

.....

2.3 Please tick the activities which this organization/institution/agency is responsible for:

	<u>Yes</u>	<u>No</u>
- Promotion of organ donation	<input type="checkbox"/>	<input type="checkbox"/>
- Setting up protocols, guidelines, recommendations	<input type="checkbox"/>	<input type="checkbox"/>
- Waiting List management	<input type="checkbox"/>	<input type="checkbox"/>
- Coordination of organ procurement	<input type="checkbox"/>	<input type="checkbox"/>
- Organ allocation	<input type="checkbox"/>	<input type="checkbox"/>
- Donors registry/registries	<input type="checkbox"/>	<input type="checkbox"/>
- Transplant follow-up registries	<input type="checkbox"/>	<input type="checkbox"/>
- Other: Please specify _____	<input type="checkbox"/>	<input type="checkbox"/>

3. Please provide additional information if there are different (more than one) government authorities or specific organizations having different roles in donation and transplantation at **national level**:

4. Is the country affiliated with an international organ allocation organization?

Yes ☐ If yes, please specify which one: _____
No ☐

5. Are there Ethical Committees dealing with donation and / or transplantation activities?

Yes ☐
No ☐

5.1. If yes, at what level? (Please, **only** tick the highest level of centralization)

National ☐
Provincial /State / Regional / Federal ☐
Local/Hospital ☐

6. Is there any person/s responsible for managing organ donation and / or transplantation matters at national level?

For donation: Yes ☐
No ☐

For transplantation: Yes ☐
No ☐

For both (donation and transplantation): Yes ☐
No ☐

7. Are there registries to collect socio-demographic, clinical and/or epidemiological data of the donors?

	<u>Yes</u>	<u>No</u>
- Deceased	<input type="checkbox"/>	<input type="checkbox"/>
- Living	<input type="checkbox"/>	<input type="checkbox"/>

8. Are there follow-up/outcomes registries in place? (Whenever the answer is Yes, please **only** tick the highest level of centralization).

Level

	<u>Yes</u>	<u>No</u>	<u>National</u>	<u>Provincial/Regional/State</u>	<u>Local/Hospital</u>
- Post-transplant <u>recipient</u> follow-up:					
- Kidney	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
- Liver	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
- Heart	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
- Lung	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
- Pancreas	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
-Post-transplant <u>Living donor</u> follow-up:					
- Kidney	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
- Liver	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
- Lung	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>

9. Is there any surveillance system based on the reporting of adverse events in organ transplant recipients?

Yes ☐
No ☐

9.1 If yes, please **only** tick the highest level of centralization:

National ☐
Provincial / State / Regional / Federal level ☐
Local / Hospital level ☐

10. Is there any surveillance system based on the reporting of adverse reactions in living organ donors and organ transplant recipients?

	<u>Yes</u>	<u>No</u>
Organ transplant recipients	<input type="checkbox"/>	<input type="checkbox"/>
Living organ donors	<input type="checkbox"/>	<input type="checkbox"/>

10.1 If yes, please **only** tick the highest level of centralization:

National ☐
Provincial / State / Regional / Federal level ☐
Local / Hospital level ☐

11. Please provide the name of the competent authority/ies overseeing safety and quality matters at national level, if there is any:

12. Is there a systematic public educational program on donation and transplantation at school level?

Yes ☐
No ☐

13. Are there any training programmes within the country to harmonize practices for staff involved in:

	<u>Yes</u>	<u>No</u>
Organ procurement	<input type="checkbox"/>	<input type="checkbox"/>
Organ transplantation	<input type="checkbox"/>	<input type="checkbox"/>

14. Are the following processes for deceased donors based on any protocols or standards or guidelines at national/provincial level?

	<u>Yes</u>	<u>No</u>
14.1. Deceased donor identification	<input type="checkbox"/>	<input type="checkbox"/>
14.2. Criteria for donor selection	<input type="checkbox"/>	<input type="checkbox"/>
14.3. Screening for transmissible diseases (tumours, infections, other)	<input type="checkbox"/>	<input type="checkbox"/>

15. Are there national/provincial/local standard guidelines for donor evaluation in living donation?

Yes ☐
No ☐

16. Are there transparent systems² with specified criteria for the selection of recipients and organ allocation in donations from deceased persons? (If there is not a deceased donor programme in place, please skip to Q.18)

16.1 Selection of recipients:

Yes	<input type="checkbox"/>
No	<input type="checkbox"/>

16.2 Organ allocation:

Yes	<input type="checkbox"/>
No	<input type="checkbox"/>

² Maintaining public access to regularly updated comprehensive data and information.

17. What are the criteria, if any, that are applied to ensure a fair and equitable **organ allocation?**

	<u>Yes</u>	<u>No</u>
17.1 Clinical criteria (age, severity, etc)	<input type="checkbox"/>	<input type="checkbox"/>
17.2 Compatibility (= absence of recipient antibodies to blood group antigens present in the transplant organ)	<input type="checkbox"/>	<input type="checkbox"/>
17.3 Time on Waiting List	<input type="checkbox"/>	<input type="checkbox"/>
17.4 Geographical criteria	<input type="checkbox"/>	<input type="checkbox"/>
17.5 Others (Specify) : _____	<input type="checkbox"/>	<input type="checkbox"/>

18. Are there Waiting Lists for:

	<u>Yes</u>	<u>No</u>
- Kidney	<input type="checkbox"/>	<input type="checkbox"/>
- Liver	<input type="checkbox"/>	<input type="checkbox"/>
- Heart	<input type="checkbox"/>	<input type="checkbox"/>
- Lung	<input type="checkbox"/>	<input type="checkbox"/>

18.1 If yes, at what level are they managed?

	<u>Kidney</u>	<u>Liver</u>	<u>Heart</u>	<u>Lung</u>
National	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
Provincial /State / Regional / Federal	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
Local/Hospital	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>

19. Are there exclusion criteria for candidates to receive an organ transplant?

	<u>Yes</u>	<u>No</u>	
- Foreigners	<input type="checkbox"/>	<input type="checkbox"/>	
- Other	<input type="checkbox"/>	<input type="checkbox"/>	If yes, please comment: _____

20. Is there any mechanism to ensure that confidentiality and privacy of donors and recipients are protected?

Yes ☐

No ☐

21. Is there a mechanism in place at **national level** to ensure that:

21.1 each organ donor is uniquely identified? Yes ☐
No ☐

21.2 each organ recipient is uniquely identified? Yes ☐
No ☐

21.3 each organ is uniquely identified? Yes ☐
No ☐

22. Is there any system or mechanism in place to ensure traceability?

Yes ☐ If yes, please comment: _____
No ☐

23. Are organ procurement expenses covered by? (Please tick when apply):

State ☐
Private Health Insurance ☐
Recipients ☐
Other ☐ Please specify: _____

24. Are transplantation costs covered by? (Please tick when apply):

State ☐
Private Health Insurance ☐
Recipients ☐
Other ☐ Please specify: _____

25. Are recipients paying for post - transplant care and drugs?

Yes ☐ If yes: Total ☐ Partial ☐
No ☐

Please comment if needed: _____

26. Are live donors paying for any intervention (diagnostic, therapeutic, surgery) derived from the transplant and follow-up care?

Yes ☐ If yes: Total ☐ Partial ☐
No ☐

Please comment if needed: _____

Transplants performed abroad:

27. Is there any cooperation framework or agreement to allow patients to be transplanted abroad?

Yes ☐

No ☐

If yes, please comment under which programmes and specify the countries:

28. In case of recipients travelling abroad to be transplanted (under a cooperation framework or not): Is the recipients' follow-up assured in the country of origin upon their return?

Yes ☐

No ☐

29. Do recipients and living donors travel abroad together?

Yes, always ☐

Yes, sometimes ☐

No ☐

29.1 Is the living donor follow-up assured upon his/her return?

Yes ☐

No ☐

30. Please use this space for further clarifications to any of the questions:

° A 2/ LEGISLATION

Note:

“Legal requirement”: includes, for example, legislation, decrees, ordinances, regulations, administrative procedures, governmental resolutions, other mandatory governmental requirements or requirements of any other entity specifically mandated by the government to adopt such requirements.

31. Are any aspects of organ donation and /or transplantation covered by any legal requirement?

Yes ☐ If Yes, Time of Enactment: _____

No ☐

31.1 If yes, does it cover the following aspects?

	<u>Yes</u>	<u>No</u>
Organ donation from deceased persons	<input type="checkbox"/>	<input type="checkbox"/>
Organ donation from living persons	<input type="checkbox"/>	<input type="checkbox"/>
Allocation	<input type="checkbox"/>	<input type="checkbox"/>
Organ Transplantation	<input type="checkbox"/>	<input type="checkbox"/>
Organ Trafficking	<input type="checkbox"/>	<input type="checkbox"/>

32. Is the government currently intending to adopt new or revise any legal requirement on these subjects and/or on missing/unforeseen subjects?

Yes ☐ No ☐

33. Do healthcare centres, hospital teams or units, or any other body which undertakes the following procedures, have to be officially authorized to do so (by the government or any other entity specifically mandated by the government to make these authorizations):

33.1- Organ retrieval

<u>Yes</u>	<u>No</u>
<input type="checkbox"/>	<input type="checkbox"/>

33.1.1 If yes, what are the types of healthcare centres, hospital teams, units or other bodies that can be authorized to perform this activity?

	<u>Yes</u>	<u>No</u>
- Governmental or government affiliated	<input type="checkbox"/>	<input type="checkbox"/>
- Nongovernmental not for profit	<input type="checkbox"/>	<input type="checkbox"/>
- Nongovernmental for profit	<input type="checkbox"/>	<input type="checkbox"/>

33.2 - Organ transplantation Yes No
☐ ☐

33.2.1 If yes, what are the types of healthcare centres, hospital teams, units or other bodies that can be authorized to perform this activity?

	<u>Yes</u>	<u>No</u>
- Governmental or government affiliated	<input type="checkbox"/>	<input type="checkbox"/>
- Nongovernmental not for profit	<input type="checkbox"/>	<input type="checkbox"/>
- Nongovernmental for profit	<input type="checkbox"/>	<input type="checkbox"/>

34. Is there a legal requirement for healthcare centres, hospital teams, units or other bodies to report to the government the transplants performed within the country?

Yes ☐ No ☐

35. Is death certification a legal requirement for all deaths that occur within the country?

Yes ☐ No ☐

35.1 Is death certification a legal requirement for some, but not all deaths?

Yes ☐ No ☐

If yes, please indicate in which context: _____

36. Are the criteria for the determination of death specified in any legal requirements?

Yes ☐ No ☐

If yes:

	<u>Yes</u>	<u>No</u>
36.1 Is the determination made on the basis of neurological criteria (i.e. brain death)?	<input type="checkbox"/>	<input type="checkbox"/>

36.2 Is the determination made on the basis of circulatory / respiratory criteria (circulatory death)?	<input type="checkbox"/>	<input type="checkbox"/>
---	--------------------------	--------------------------

Donation from deceased persons

37. Is the type of consent (presumed or explicit) required for donations from deceased persons specified in any legal requirements in the country?

Yes ☐ No ☐ If not, please skip to 38.

37.1. If yes, which type of consent is needed for the organ donation from deceased persons?:

37.1.1 *Presumed consent* Yes ☐ No ☐ If not, please skip to 37.1.2.

37.1.1.a Is there any legal mechanism to express a refusal to donate (e.g. ID, registry of refusals, etc)?

Yes ☐ No ☐

37.1.1.b Although presumed consent is provided for in legislation, as a matter of practice, is explicit consent always required from relatives?

Yes ☐ No ☐

37.1.2 *Explicit consent* Yes ☐ No ☐

37.1.2.a Is the decision to become an organ donor (when deceased) possible to register in a personal official document (e.g. ID, driving license, etc)?

Yes ☐ No ☐

37.1.2.b Is the consent by family or next of kin sufficient to allow the donation, when the deceased person:

- Did not express the will to donate Yes ☐ No ☐

- Stated in the past the refusal to donate Yes ☐ No ☐

37.1.2.c Does the refusal by family or next of kin to authorize donation prevent the donation, when the deceased person:

- Did not express the intent to donate Yes ☐ No ☐

- Did express in the past the intent to donate Yes ☐ No ☐

37.1.2.d Is there any registry of identified donors who have already stated their intent to be available for organ donation?

Yes ☐ No ☐

37.2. Is the consent to organ donation valid for all organs?

Yes ☐

No ☐ Please comment: _____

38. Are incentives to obtain the consent of the families of the deceased person (in the form of any monetary payment or other reward of monetary value), legally permitted?

Yes ☐ No ☐

38.1 If yes, are they regulated by the government?

Yes ☐ No ☐

Please comment:

39. Is there a legal requirement for healthcare centres, hospital teams, units or other bodies to report to the government the actual donors³ for donations from deceased persons?

Yes ☐ No ☐

Living Donation

40. Is unrelated living donation legally permitted?

Yes ☐ No ☐

41. Are there requirements which are pre-requisites for *living donations*?

	<u>Yes</u>	<u>No</u>
41.1 Ethical Committee approval	<input type="checkbox"/>	<input type="checkbox"/>
41.2 External medical advice	<input type="checkbox"/>	<input type="checkbox"/>
41.3 Judicial approval	<input type="checkbox"/>	<input type="checkbox"/>
41.4 Psychiatric evaluation of the donor	<input type="checkbox"/>	<input type="checkbox"/>
41.5 Written consent of the donor	<input type="checkbox"/>	<input type="checkbox"/>
41.6 Other: Please identify: _____	<input type="checkbox"/>	<input type="checkbox"/>

42. Is there a legal requirement to inform the living donor of risks and consequences of the donation?

Yes ☐ No ☐

³ Actual donor as defined in the Critical pathways for organ donation (Madrid Resolution): A consented eligible donor **A.** In whom an operative incision was made with the intent of organ recovery for the purpose of transplantation. and/or **B.** From whom at least **one organ was recovered** for the purpose of transplantation. **Note: For the purpose of filling out this questionnaire, please only consider the Actual donor B.**

43. Are financial incentives legally permitted for living organ donation (that include monetary payment or reward of monetary value)?

Yes ☐ No ☐

If yes:

43.1 Are they specifically regulated by the government?

Yes ☐ No ☐

43.2 What are permitted incentives?

.....

If not:

43.3 Are incentives nonetheless offered or provided to potential living donors?

Yes ☐ Please comment: _____
No ☐

44. Are there legal restrictions to the coverage of donation costs for the living donor?

Yes ☐
No ☐

45. Is there a legal requirement for the health system - at any level: national, provincial/regional, local - or for the healthcare centre, hospital team, unit or any other body, to provide care to the living donor in case of adverse health or medical consequences of the donation?

Yes ☐ No ☐

Please, specify: _____

46. Is there a legal requirement for follow-up/outcomes registries of living donors?

Yes ☐ No ☐

46.1. If yes, is there a legal requirement for including that information in an established registry?

Yes ☐ No ☐

47. Is there any kind of explicit prohibition of organ trafficking / transplant commercialism in any legal requirement?

Yes ☐ No ☐

47.1. If yes, are there penalties?

Yes ☐ No ☐

47.2. If yes, please identify what is specifically prohibited: _____

48. Is import into your country or export to another country of organs (for transplantation purposes) authorized, prohibited or not specifically addressed in the legal requirements?

Authorized: Yes ☐ No ☐ Not stated ☐

Prohibited: Yes ☐ No ☐ Not stated ☐

48.1 If yes, is it a legal requirement that any import / export of organs must be subject to the oversight of your government's health or other authorities?

Yes ☐ No ☐

48.2 If not, does it occur nonetheless?

Yes ☐ No ☐

General Comments (also please provide details whether **legislation** is not uniform across the country):

A 3/ ANNUAL ORGAN TRANSPLANTATION ACTIVITY

Where applicable, please specify Not available (NAV) or Not Applicable (NA)

Annual activity data corresponding to year: _____

49. How many transplant centres are officially registered?

Number of:

49.1 Kidney centres: _____

49.2 Liver centres: _____

49.3 Heart centres: _____

49.4 Lung centres: _____

49.5 Pancreas centres: _____

49.6 Small Bowel centres: _____

50. Actual deceased organ donors ⁴ :

Green columns: Whenever possible, please indicate the number of donors according to the following age categories: paediatric donors (**under 15 years old**); **15 - 59 years old**; **≥ 60 years old**.

	Total	(< 15 years)	(15 - 59 years)	(≥ 60 years)
Number of Actual deceased organ donors:				
50.1 Number of Actual donors after brain death (DBD) , i.e., actual deceased organ donors in whom death has been determined by neurological criteria:				
50.2 Number of Actual donors after circulatory death (DCD) , i.e, actual deceased organ donors in whom death has been determined by circulatory criteria:				

⁴ Actual deceased organ donor: As defined in the Critical pathways for organ donation (Madrid Resolution): A consented eligible donor **A**. In whom an operative incision was made with the intent of organ recovery for the purpose of transplantation. and/or **B**. From whom at least **one organ was recovered** for the purpose of transplantation. **Note: For the purpose of filling out this questionnaire, please only consider the Actual donor B.**

51. Utilized deceased organ donors ⁵ :

*Green columns: Whenever possible, please indicate the number of donors according to the following age categories: paediatric donors (**under 15 years old**); **15 - 59 years old**; **≥ 60 years old**.*

	Total	(< 15 years)	(15 - 59 years)	(≥ 60 years)
Number of utilized deceased organ donors:				
51.1 Number of utilized donors after brain death (DBD), i.e. utilized deceased organ donors in whom death has been determined by neurological criteria:				
51.2 Number of utilized donors after circulatory death (DCD), i.e., utilized deceased organ donors in whom death has been determined by circulatory criteria:				

⁵ Utilized deceased organ donor: An actual donor from whom at least one organ was transplanted. (The critical pathways for organ donation. The Madrid Resolution).

52. TRANSPLANTATION ACTIVITY *(In this section please specify the number of transplants⁶ performed only within your country for each item)*

Right green column: Whenever possible, please indicate the number of paediatric transplants (<15 years old)

52.1 KIDNEY		Number of transplants (including paediatric)	Number of paediatric transplants (< 15 years old)
From deceased persons	Total - all combinations from deceased persons (including kidney + any other organ, transplants from DBD and DCD, single and double kidney transplant):		
	From DBD:		
	From DCD:		
	Single:		
	Double ⁷ :		
From living donors	Total :		
	Related donors:		
	Unrelated donors:		
TOTAL (Total Deceased +Total Living):			

⁶ Definition of Organ Transplants: the transfer (engraftment) of human organs from a donor to a recipient with the aim of restoring function (s) in the body.

⁷ One double kidney transplant (“en bloc”) is considered as one transplant.

52.2 LIVER

		Number of transplants (including paediatric)	Number of paediatric transplants (< 15 years old)
From deceased persons	Total - all combinations (including liver + any other organ, transplants from DBD and DCD, split):		
	From DBD:		
	From DCD:		
	Split ⁸		
Domino⁹			
From living donors	Of lobe/or segment(s) from 1 donor		
	Of lobe/or segment(s) from 2 donors		
	Total:		
Total (Total Deceased + Total Living + Domino):			

52.3 HEART

	Number of transplants (including paediatric)	Number of paediatric transplants (< 15 years old)
Total - all combinations (including heart + any other organ):		
Heart-lung¹⁰		

⁸ A split liver transplant is defined when a donor liver is divided into parts and transplanted into more than one recipient. (Modified from UNOS)

⁹ Domino Transplant

A procedure in which an organ is removed from one transplant candidate and immediately transplanted into a second patient, with the first patient receiving a new organ from a deceased donor. (HRSA/OPTN)

¹⁰ One heart-lung transplant is counted as one lung transplant, one heart transplant and one heart-lung transplant.

52.4 LUNG

		Number of transplants (including paediatric)	Number of paediatric transplants (< 15 years old)
From deceased persons	Total - all combinations (including lung + any other organ transplants, from DBD and DCD, single and double lung, heart-lung):		
	From DBD:		
	From DCD:		
	Single lung:		
	Double lung ¹¹ (including heart-lung):		
From living donors:			
TOTAL (Total Deceased + Total Living):			

52.5 PANCREAS

	Number of transplants (including paediatric)	Number of paediatric transplants (< 15 years old)
Total - all combinations (including Pancreas alone, pancreas + any other organ, transplants from DBD and DCD):		
From DBD:		
From DCD:		
Pancreas alone:		
Kidney-Pancreas:		

¹¹ One double-lung transplant is considered as one transplant.

52.6 SMALL BOWEL

	Number of transplants (including paediatric)	Number of paediatric transplants (< 15 years old)
Total - all combinations (including small bowel + any other organ):		
Small bowel alone:		

52.7 TOTAL NUMBER OF RECIPIENTS TRANSPLANTED in your country within the year indicated.
E.g. For more than one organ transplanted into the same recipient: Kidney-Liver-Heart Transplant = count as one recipient.

		Number of recipients transplanted (including paediatrics)	Number of paediatric recipients transplanted (< 15 years old)
From deceased persons	Total - all combinations (from DBD and DCD) and more than one-organ transplanted		
From living donors			
TOTAL (Living + Deceased):			

53. WAITING LIST (WL):**53.1 KIDNEY**

Number of patients included on the WL for the first time in the course of XXXX	
Total number of patients ever ¹² active ¹³ on the WL during XXXX	
Number of patients awaiting a transplant (only active candidates) on 31st December:	
Number of patients dead while on the WL during the year	

¹² Active at any moment during the year.

¹³ Active Candidate: A transplant candidate eligible to be considered for organ offers at a given point in time. Some transplant candidates are temporarily classified as “inactive” by their transplant center because they are medically unsuitable for transplantation or need to complete other eligibility requirements. (HRSA/OPTN)

indicated:	
Number of patients with end-stage renal disease (ESRD) on dialysis treatment on 31 st December (if no exact data available, please give estimated data and indicate that it is an estimation)	

53.2 LIVER

Number of patients included on the WL for the first time in the course of XXXX	
Total number of patients ever active on the WL during XXXX	
Number of patients awaiting a transplant (only active candidates) on 31st December	
Number of patients dead while on the WL during the year indicated:	

53.3 HEART

Number of patients included on the WL for the first time in the course of XXXX	
Total number of patients ever active on the WL during XXXX	
Number of patients awaiting a transplant (only active candidates) on 31st December	
Number of patients dead while on the WL during the year indicated:	

53.4 LUNG

Number of patients included on the WL for the first time in the course of XXXX	
Total number of patients ever active on the WL during XXXX	
Number of patients awaiting a transplant (only active candidates) on 31st December	
Number of patients dead while on the WL during the year indicated:	

53.5 PANCREAS

Number of patients included on the WL for the first time in the course of XXXX	
Total number of patients ever active on the WL during XXXX	
Number of patients awaiting a transplant (only active candidates) on 31st December	
Number of patients dead while on the WL during the year indicated:	

53.6 SMALL BOWEL

Number of patients included on the WL for the first time in the course of XXXX	
Total number of patients ever active on the WL during XXXX	
Number of patients awaiting a transplant (only active candidates) on 31st December	
Number of patients dead while on the WL during the year indicated:	

54. TRANSPLANTS ABROAD

54.1 Number of resident patients in the reporting country, known to have been transplanted abroad from a living or deceased donor, within the year indicated: _____

54.1.1 If any cases reported for 54.1, please provide information on the destination country / countries: _____

54.2 Number of resident living donors in the reporting country, known to have travelled abroad to donate, within the year indicated: _____

54.2.1 If any cases reported for 54.2, please provide information on the destination country / countries: _____

54.3 Additional information:
